

Hunting and Trapping

Hunting is allowed under statewide regulations with the following exceptions:

- Hunters may not hunt on or within 100 feet of any trails, or roads open to vehicular traffic.
- Quail hunting is prohibited.
- Rabbits may be hunted with shotgun only from Jan. 1 through Feb. 15. Daily limit: 4.
- Dove hunting is permitted during legal shooting hours in accordance with statewide regulations, except the use or possession of lead shot is prohibited. During the month of September, dove hunters must possess a valid area daily hunting tag while hunting and must accurately report their harvest immediately upon completing their hunting trip.
- Deer hunting by managed hunt permit only. Hunters must apply for a permit through the managed hunt drawing system. Application information is available at most Conservation Department offices.
- Only portable tree stands are allowed and only from September 1 through January 31. Unattended stands must be plainly labeled on a durable material with the full name and address, or Conservation Number, of the owner and be removed from the area before February 1. Use of nails, screw-in steps, and any material or method that would damage the tree is prohibited.
- Waterfowl hunting is by special managed hunts only.
- Spring turkey hunting is permitted during special managed hunts. Fall archery and firearms turkey hunting is prohibited.
- Firearms firing single projectiles are prohibited except for special managed deer hunts, and except that furbearers may be taken with a rimfire .22-caliber or smaller firearm when treed with the aid of dogs.
- Furbearers not treed with the aid of dogs may be taken only by shotgun during the prescribed furbearer season.
- All furbearers may be taken during managed deer hunts that coincide with the prescribed furbearer season using methods allowed for deer by participants holding a valid managed deer-hunting permit and the

prescribed permit for taking furbearers.

- Furbearer trapping is permitted by special-use permit.

MISSOURI DEPARTMENT OF CONSERVATION

August A. Busch Memorial Conservation Area

Area Highlights

This 6,987-acre area contains 3,000 acres of forest in addition to cropland, old fields, prairie and wetlands.

Facilities/features: boat rentals, picnic areas and a pavilion, hiking trails, fishing jetties, fishing docks, staffed firearms range, archery range, viewing blinds, and a visitor center. The area also has 27 fishable lakes and ponds totaling 550 acres. It is located south on Highway 94 from I-64 then 1.5 miles west on Route D.

Portions of the August A. Busch Memorial Conservation Area were used by the Department of Army in the 1940s for TNT and DNT production and by the Atomic Energy Commission in the 1960s for uranium ore processing. The affected portions were all part of a federal environmental cleanup project and required to meet certain environmental health and safety standards. The area is now considered to be safe for all recreational pursuits allowed on the area, as well as the wildlife found within the area. To find out more about the history of these activities on the area, you can visit the Weldon Spring Site Interpretive Center located at 7295 Highway 94 South, St. Charles, MO 63304.
