

MISSOURI DEPARTMENT OF CONSERVATION COMMERCIAL FISHING MONTHLY HARVEST REPORT INSTRUCTIONS

1. **COMMERCIAL FISHING MONTHLY HARVEST REPORTS** must be received by the Department of Conservation within 30 days of the end of each month, even if you did not fish. For months not fished, write "DID NOT FISH" across the report. Submit reports for all months during which you hold a Commercial Fishing Permit.
2. Each report should cover your daily fishing activity for the entire month. There is a line for each day of the month, fill out the form daily if you fished. Do not enter zeros on days not fished, just leave those days blank.
3. Record **PERMITTEE NAME, COMMERCIAL FISHING PERMIT NUMBER, MONTH, and YEAR.**
4. Record the **Location Fished** daily by indicating the **River Name** (you can use the abbreviations provided), **Pool No.** (20, 21, 22, 24, 25, or 26) if you fished the upper Mississippi River (upstream of Mel Price Lock and Dam near Alton, IL.) and **River Mile** you fished.
5. Record the **Kind of Gear Fished** by entering the **Number Used (Hooks and/or Hoop Nets)** or **Yards Used (Seines, Trammel Nets, and/or Gill Nets)** each day.
6. Record your **Harvest in Pounds (lbs.) or Number (No.) by Species** daily for each species that you harvest. Do not report fish that you release. Use the **Other Fish** column to write in species not listed on the form.
7. For **Bowfin, Shovelnose Sturgeon, and Paddlefish** only, record the number of fish (**No.**), **Total Weight (lbs.)**, and **Raw Egg Weight (lbs.)** harvested daily (ROE FISH COMMERCIAL HARVEST PERMIT IS REQUIRED).
8. List the **Name(s)** and **Address(es)** of anyone who received Bowfin, Shovelnose Sturgeon, or Paddlefish products taken under your permit (ROE FISH COMMERCIAL HARVEST PERMIT IS REQUIRED).
9. List **Lost or Stolen Equipment (Gear) Tags** by recording the **tag type and number**. Contact Permit Services to request replacement tags or permits: 573-751-4115
10. **Sign and Date** the report.
11. Mail **Commercial Fishing Monthly Harvest Reports** to the address provided below.

These reports, when summarized, provide an important measure of commercial fish harvest trends. Your accurate reporting is necessary to help the Missouri Department of Conservation manage these valuable fishery resources.

Failure to submit an accurate monthly report on time is a violation of the *Wildlife Code of Missouri*, and shall be sufficient cause to revoke your current Commercial Fishing Permit and deny renewal of a permit for the following year (3 CSR 10-10.727).

If you have questions about these monthly reports, please contact us.

For questions please contact:

Joe McMullen, Big River Specialist
Phone: 314-577-9555 ext. 76048
