I agree to comply with all rules pertaining to the Landowner Permit Application under the *Wildlife Code of Missouri*.

*Applicant Signature: _____ Date: _____

A Landowner Permit Application must be completed to be eligible to receive landowner permits. Entry of applications received less than 60 days prior to any deer or turkey season cannot be guaranteed. Qualifying landowners and immediate household members must reapply by submitting this completed form at least once every three years or at any time when there is a change to any information required on the current application. Three years is based on the date of the last update to the applicant's application. The Department will consider any new application received from the applicant as a replacement of the landowner's current application on file.

Landowner Permit Application Instructions

Landowners with qualifying contiguous acreage (20 or more for residents, 75 or more for nonresidents) are required to submit a Landowner Permit Application to obtain landowner deer and turkey permits. Each qualifying landowner, including their immediate household members, is required to apply. Entry of applications received less than 60 days prior to any season cannot be guaranteed. Qualifying landowners and immediate household members must reapply by submitting this completed form at least once every three years or at any time when there is a change to any information required on the current application. Three years is based on the date of the last update to the applicant's application. The Department will consider any new application received as a replacement of the landowner's current application on file. **Incomplete applications will be returned to the applicant.** The Landowner Permit Application may be completed online at www.mdc.mo.gov/buypermits.

SECTION 1: Landowner Information

All required fields must be completed. The Conservation ID number is a nine-digit number located on your Heritage or Permit Card, hunting, fishing, and trapping permits, or from the MO Hunting or MO Fishing mobile applications. An email address or mailing address is required to provide notification that the Landowner Permit Application has been processed and permits may be obtained.

SECTION 2: Property Information Instructions

An applicant may provide property information for up to four counties or qualifying properties under different ownership on a single application. If property owned exceeds the four available entries, additional applications may be included with the original. Applicant is required to provide the County Code, Acreage, Parcel/Tax/Locator ID (county dependent), Landowner Type, and confirm if the property is owned by a corporation. If owned by a corporate entity, the name of the corporate entity must be included. Refer to the resident landowner (20-contiguous acre minimum) scenarios below for examples on how to accurately complete the Landowner Permit Application. Acreage should **not** be rounded.

Scenario 1: A landowner owns 20.65 contiguous acres in a single county. The applicant will submit one entry on the application for the qualifying 20.65-acre tract.

Scenario 2: A landowner owns more than one contiguous acre tract (i.e., 20.65 and 20 acres) in a single county. The applicant will submit two entries on the application and supply Parcel, Tax, or Locator ID numbers for the qualifying properties.

Scenario 3: A landowner owns more than one tract (i.e., 15.65 and 20) in a single county, but the properties are **not** contiguous. The applicant does **not** qualify for landowner permits on the 15.65-acre tract due to **not** meeting the minimum qualifying acreage requirement. The applicant will submit one entry on the application for the qualifying 20-acre tract.

Scenario 4: A landowner owns 20.65 contiguous acres where the property is bisected by a county line (i.e., 5.65 acres on one side and 15 acres on the other). The applicant will include two entries on the application; one for the county with 5.65 acres and one for the county with 15 acres, and each county will have its own unique Parcel, Tax, or Locator ID number. This will require the Contiguous Acres question to be completed (front of application).

Scenario 5: A landowner owns 20.65 contiguous acres in a single county; 5.65 acres as an individual and 15 acres as a part of a corporate entity. The applicant will submit two separate entries for the same county on the application; one for each type of ownership and each entry will have its own unique Parcel, Tax, or Locator ID number.

NOTE: Parcel/Tax/Locator ID information may be found on your tax receipts or other documentation provided by your county. Township, Range and Section information is optional and is **not** required.
