Missouri Department of Conservation Wild Turkey Brood Survey Observation Worksheet

- Record all wild turkeys seen during June, July, and August. Submit observations through the online form at the end of each survey month.
- Record all wild turkeys seen including hens, poults, males (jakes and gobblers), and turkeys that you could not identify as hens or males.
- Record each observation on a single line.
- Check the "Seen before" box if you believe you have recorded the turkey(s) before.
