

Everyday Pond

Missouri Western State University

About This Area

Missouri Western State University's scenic 645-acre campus includes approximately 200 acres of wooded natural habitat along a small stream named Otoe Creek. This preserve, called the Otoe Creek Nature Area, has nature trails and a small outdoor amphitheater. The campus also maintains nine man-made ponds of varying sizes, depths and watershed areas to provide a diverse collection of aquatic wildlife experiences. Everyday pond is the only pond with developed facilities including a parking lot, privy and disabled fishing dock. It is currently stocked with large-mouth bass, bluegill, channel catfish and rainbow trout. The public is invited to use Everyday pond for fishing, nature viewing or a variety of other recreational and educational uses.

Things to Do

- Fishing
- Hiking
- Picnicking
- Outdoor Photography
- Nature Study and Birdwatching

Rules and Regulations

- No boats or float tubes allowed
- No camping allowed
